PROFESSIONAL SUMMARY

Accounting and finance professional with an MSc in Accounting & Finance (Merit) and ACCA studies in progress (four exemptions, Taxation passed). Supported accounts payable, reconciliations, payment processing and month-end across four UK legal entities, processing 200+ supplier invoices monthly. Previously assessed 100+ US mortgage applications each month against credit, fraud and policy criteria. Currently working on an independent AI-assisted audit analytics case study of Global Fashion Group, using Python and Excel to analyse reported figures and validate AI-generated observations against source data.

KEY SKILLS

- **Accounting & Finance Operations:** Accounts payable, invoice coding and VAT, journal posting, bank, corporate card and supplier reconciliations, BACS payment processing, month-end support, multi-entity accounting
- **Audit, Controls & Risk:** Evidence review, policy and compliance checks, payment pre-release checks, approval controls, financial statement analysis, risk-to-assertion mapping (personal learning project)
- **Systems & Analytics:** Microsoft Dynamics NAV, SAP Concur, Sage, Xero, QuickBooks, Excel (PivotTables, VLOOKUP/XLOOKUP, SUMIFS), Python, AI-assisted analysis with documented validation

PROFESSIONAL EXPERIENCE

Accounts Assistant March 2025 - July 2026
Davy's of London, Greenwich, UK

- Supported finance operations across four legal entities, covering accounts payable, journal posting, reconciliations, payment processing and month-end activities.
- Processed 200+ supplier invoices each month, including purchase order matching, VAT and general ledger coding, entity allocation, supplier queries and statement reconciliations.
- Prepared fortnightly BACS payment batches of approximately £400,000 from SAP Concur and Microsoft Dynamics NAV, completing pre-release checks and uploading batches to the banking portal for authorised release within an approval-controlled process.
- Independently completed allocated bank account reconciliations and the corporate credit card reconciliation, investigating differences and posting the related accounting entries.
- Posted SAP Concur-generated and supplier payment journals to Dynamics NAV, and provided information and schedules for accruals and prepayments prepared by the Finance Manager.
- Prepared accounting records for management review and supplied requested information to external auditors under the Finance Manager's oversight.
- Mentored new team members and improved recurring Excel workflows and templates with AI-assisted tools to reduce manual processing.

Mortgage Underwriter September 2020 - July 2022
Sutherland Global Services Ltd, India

- Assessed 100+ US mortgage applications each month against lending policy and compliance requirements.
- Reviewed credit histories, identity and Social Security number evidence, fraud indicators, income and debt information, and property documentation.
- Met turnaround and documentation quality requirements in a high-volume environment.

INDEPENDENT PORTFOLIO PROJECT

Global Fashion Group: AI-Assisted Audit Analytics Case Study
Personal learning project using public data; not professional client-audit experience. Tools: Python, Excel. Portfolio: muhammedyousufds.github.io

- Analysed Global Fashion Group's FY2024 and FY2025 reported figures (Annual Report 2025) in Python and a formula-driven Excel workbook, covering revenue, gross margin, inventory and provisions, working capital and Pro-Forma Cash. Reconciled outputs with 76 Python-to-Excel checks, all passed.
- Used AI to organise disclosures and draft observations, then validated each against a source register and recalculated figures. This caught and corrected an inventory provision ratio change (0.84 to 0.80 percentage points) and narrowed an unsupported supplier-finance claim.
- Mapped nine risk areas to financial statement assertions and proposed 45 audit procedures as planning only (none performed), then compared the themes with the company's published key audit matters.

EDUCATION & QUALIFICATIONS

ACCA (Association of Chartered Certified Accountants) In progress
Four exemptions awarded; Taxation (TX/F6) passed. Continuing studies towards the remaining papers.

MSc Accounting & Finance, Merit September 2022 - March 2024
Anglia Ruskin University, UK. Relevant modules: International Accounting, Applied Corporate Finance and Financial Strategy, UK Taxation and Auditing.

BCom Finance & Taxation April 2015 - March 2018
Aquinas College, India

ADDITIONAL TRAINING

Practical Accounting Training Programme (non-employment) April 2024 - February 2025
Future Connect Training & Recruitment Ltd, London, UK

- Completed practical exercises using simulated SME datasets covering double-entry bookkeeping, invoices and credit notes, bank reconciliations, VAT processes and management account support.
- Used Sage, Xero, QuickBooks and Excel for ledger maintenance, invoice processing, reconciliations and supporting schedules.
